- Minimum length culvert (if required) at entrance of driveway 30 feet
- Minimum road surface width at intersection. 20 feet
- Minimum width clearance at intersection. 24 feet
- Minimum height clearance free of trees, wires and similar obstructions ... 16 feet

The driveway within the area of the public right-of-way shall slope away from the public road at a minimum of 1 % and a maximum of 5 % and for 15 feet from the entrance to the town road to prevent erosion onto the public road. It must have a roadbed of 6 inches of 2-3" breaker rock covered with 4 inches of aggregate (3/4") gravel at grade to obtain a driveway permit. If culverts are required, the Town Board shall determine the recommended minimum diameter. The angle of any intersection of town road and driveway shall be no less than 90 degrees.

The maintenance of the driveway shall be the responsibility of the property owner.

The fee for a driveway permit is \$75; this is due with the application.

All driveways shall be constructed in accordance with the above requirements and specifications as set forth by the Town of Coon Driveway Ordinance.
